

Devolution

Part 1 - How did we get here?

Patel Patriot

Jul 2 26 24 ...

What is Devolution?

The concept of Devolution is fundamental and part of the government's top-secret continuity of government plans. I will cover the continuity of government plans in detail in a future post. Check out this [Newsweek](#) article from 2020. While the report presents Devolution in the context of the pandemic, it still provides enough detail to prove that Devolution exists and was a topic explored by Trump.

Above-Top Secret contingency plans already exist for what the military is supposed to do if all the Constitutional successors are incapacitated. Standby orders were issued more than three weeks ago to ready these plans, not just to protect Washington but also to prepare for the possibility of some form of martial law.

According to new documents and interviews with military experts, the various plans – codenamed Octagon, Freejack and Zodiac – are the underground laws to ensure government continuity. They are so secret that under these extraordinary plans, "devolution" could circumvent the normal Constitutional provisions for government succession, and military commanders could be placed in control around America.

From the Newsweek Article

The article was published March 18, 2020, and claims, "Standby orders were issued more than three weeks ago to ready these plans...". That means in February of 2020. Trump had ordered the military to review and prepare the continuity of government plans. I think the timeline of this is essential.

Note this article regarding a "fringe theory" being thrown around by Senator Tom Cotton and notice the date. A "theory" stating the virus originated from a biosafety lab pops up around the same time Trump is ordering the military to prepare continuity of government plans.

Today we know that this "theory" is almost certainly true. It's safe to assume military intelligence was all over this at the time, even though Trump didn't publicly state that he had seen evidence that the virus came from the lab until May 1, 2020.

There is so much disinformation still surrounding the Covid-19 pandemic and that is by design. Was it an accident? Was it a bio-weapon? Depending on the platform you use, you may not even be allowed to ask those questions. However the answer to those questions is key to the Devolution theory because it was the launching pad for the theft of the 2020 election and ultimately the pretext for Trump having our military prepare for Devolution.

Covid-19

If you look objectively at Trump's handling of China, his policies were pro-American rather than the pro-China approach of previous administrations. In August of 2017, he directed the Office of the United States Trade Representative to investigate Chinese economic practices. Their subsequent report attacked many aspects of China's monetary policy.

Trump began imposing tariffs on Chinese products referencing "a trade deficit of \$500 Billion a year with Intellectual Property Theft of another \$300 Billion." (I'll cover this IP theft in a future post) These tariffs led to a "trade war" that culminated in the Phase One trade deal signing on **January 15 of 2020**.

Why is that date important? Because the very next day, Trump's impeachment trial in the senate began.

Think back to August 2019.

The pressure is building on the Biden family for their ties to Ukraine and China. It almost feels like Durham would drop the hammer any day on the Obama administration for Spygate. The "Whistle-blower" comes forward with the quid-pro-quo accusation, and an impeachment inquiry in the House of Representatives is underway. However, with a Republican majority in the Senate and no evidence of a quid-pro-quo, everybody knows the President will be acquitted.

The America-first platform Trump campaigned on was working. The economy was booming. He was winning the “trade war” with China. None of the scandals thrown at him had stuck. He was unscathed through Impeachment. Along with the other two most significant threats to America (Democrats and the media), China was desperate to get Trump out of office. China favored a Biden presidency, and as found on Hunter Biden's Laptop; they would have an equity stake in the Biden administration.

Although the fake polls said otherwise, the Democrats appeared to have little chance in 2020. The momentum was palpable. The only way the democrats would be able to win the election was to steal it.

How convenient that Covid-19 would present them such an opportunity.

Now you can decide for yourself whether the leak was intentional or not, but what did PDJT himself say?

What did President Trump say?

Speaking to reporters in the Oval Office of the White House on Wednesday, Mr Trump said: "We went through the worst attack we've ever had on our country, this is worst attack we've ever had.

"This is worse than Pearl Harbor, this is worse than the World Trade Center. There's never been an attack like this.

"And it should have never happened. Could've been stopped at the source. Could've been stopped in China. It should've been stopped right at the source. And it wasn't."

“We went through the worst attack we’ve ever had on our country”.

The Election

Everything about the election of 2020 was controversial. Sitting Presidents don’t gain votes and not get re-elected. Obama had 3 million less votes and was re-elected with a total of almost 66 million votes. Trump gained almost 12 million votes and lost with a total of over 74 million votes. It was evident Covid-19 was a pretext for mass numbers of mail-in voting. A famous politician once said:

"Mail-in ballots are extremely susceptible to fraud" - Jerry "Pampers" Nadler

Local Democrat officials and RINOs unconstitutionally changed election laws in swing states to create more mail-in voting.

Trump saw this coming a mile away.

US President Donald Trump has warned his fellow Republicans their opponents may "steal" November's election, as his party anointed him as their candidate.

"They're using Covid to defraud the American people," Mr Trump told delegates on the first day of the party convention in North Carolina.

He repeated an untrue claim that mail-in ballots could lead to voter fraud.

An unprecedented number of Americans are expected to vote by mail as a result of the coronavirus pandemic.

<https://www.bbc.com/news/election-us-2020-53898142>

President Trump on Monday further cast doubt on the U.S. election process, claiming falsely that the only way he would lose in November is if the election is "rigged."

Trump made the remark at the end of a speech to supporters in Oshkosh, Wis., on Monday afternoon as he implored them to vote. It follows months of Trump claiming without evidence that widespread mail-in voting during the coronavirus pandemic would invite fraud into the election.

<https://thehill.com/homenews/administration/512424-trump-the-only-way-we-are-going-to-lose-this-election-is-if-the>

There are thousands of examples out there just like these and even a few prior to 2020:

More reports of voting machines switching Romney votes to Obama. Pay close attention to the machines, don't let your vote be stolen

— Donald J. Trump (@realDonaldTrump) November 6, 2012

STORY HIGHLIGHTS

Trump won the Electoral College

But he trails Clinton in the popular vote by about two million

Washington (CNN) — President-elect Donald Trump alleged Sunday, without evidence, that “millions of people” voted illegally for Hillary Clinton and otherwise he would have won the popular vote. It’s an unprecedented allegation by a president-elect.

Trump won the Electoral College and thus the White House, but the Democratic nominee leads him in the popular vote by about two million ballots.

“In addition to winning the Electoral College in a landslide, I won the popular vote if you deduct the millions of people who voted illegally,” Trump tweeted.

<https://www.cnn.com/2016/11/27/politics/donald-trump-voter-fraud-popular-vote/index.html>

So what do you do as President when you know fraudulent activity runs rampant through our federal elections? You take action. Everybody underestimated Trump during the 2016 election. There was still fraud, but he was able to overcome it. They were underprepared because they believed their own fake polls and thought Trump had no chance. He knew just like everybody else, that cheating was their only path to victory so he prepared for it.

On May 11, 2017, he established the Presidential Advisory Commission on Election Integrity.

Sec. 3. Mission. The Commission shall, consistent with applicable law, study the registration and voting processes used in Federal elections. The Commission shall be solely advisory and shall submit a report to the President that identifies the following:

(a) those laws, rules, policies, activities, strategies, and practices that enhance the American people's confidence in the integrity of the voting processes used in Federal elections;

(b) those laws, rules, policies, activities, strategies, and practices that undermine the American people's confidence in the integrity of the voting processes used in Federal elections; and

(c) those vulnerabilities in voting systems and practices used for Federal elections that could lead to improper voter registrations and improper voting, including fraudulent voter registrations and fraudulent voting.

In September, he signed an Executive Order Imposing Certain Sanctions in the Event of Foreign Interference in a United States Election.

In November of 2018, he created the Cybersecurity and Infrastructure Security Agency.

Cybersecurity and Infrastructure Security Agency

Original release date: November 19, 2018 | Last revised: November 20, 2018

[Print](#) [Tweet](#) [Send](#) [Share](#)

On November 16, 2018, the President signed into law the Cybersecurity and Infrastructure Security Agency Act of 2018. This Act elevates the mission of the former Department of Homeland Security (DHS) National Protection and Programs Directorate (NPPD) and establishes the Cybersecurity and Infrastructure Security Agency (CISA). CISA is responsible for protecting the Nation's critical infrastructure from physical and cyber threats, a mission that requires effective coordination and collaboration among a broad spectrum of government and private sector organizations.

In December of 2019 Trump created the Space Force.

I will cover his time in office in detail in a future post but these actions signify that Trump was proactively taking steps to deter an election theft.

The Actual Theory

President Trump, with assistance from the United States Military, caught our foreign adversaries aiding the democrats with the theft of an election. This is bigger than just mere corruption and scandal.

This is war.

They let Biden assume office but it doesn't mean anything. Any damage done can and will be reversed. They are basically playing house. Their time "in office" will only lead to more people wanting Trump back. Biden has no meaningful operational control over the military (I will cover that in a future post) and they won't let any real harm come to us while the battlefield is prepped for whatever reveal is coming.

If you look at actions Trump took leading up to the election he was prepared for anything the democrats might pull. Our military intelligence (Space Force) monitored and captured the true vote count. I believe the audits will be eye-opening and kick everything off.

"If Trump had the vote count, why didn't he do anything? Why haven't we seen any "real" proof of voter fraud"?

Covid changed everything. When Trump said Covid was an attack, he stated that it was "worse than Pearl Harbor." If PDJT had information that the Democrats would steal the election with help from China, that would be considered an act of war. Do you think that is something Trump would allow? Would our military let China install a puppet as President? We prepared for Devolution after gathering information on the lab leak and activated it sometime between November 3rd and January 20th.

"It's too late, the electoral college voted for Biden"... "there is no legal precedent outlined in the constitution for him to be reinstated".. Blah Blah Blah.

We are in a completely unprecedented situation.

If the military came out tomorrow and showed you definitive proof that China assisted the democrats in stealing the election, would you say, "oh well, no precedent. Can you show me to my assigned gulag?" or would you say "F&@% that, this can't be allowed to stand." Trump chose the latter.

We need to step back and review everything that has happened since the release of Covid. Our enemies conspired to attack the U.S.A. with a bioweapon to steal an election with one of our political parties. That is the actual coup.

We've been thinking too small.

Do you know who hasn't been thinking too small?

President Donald John Trump

“I like thinking big. I always have. To me it’s very simple: if you’re going to be thinking anyway, you might as well think big. Most people think small, because most people are afraid of success, afraid of making decisions, afraid of winning. And that gives people like me a great advantage. My”

Now available - Devolution - Part 2

God Bless you all!

Teaser for a future post:

Did you know Trump signed this Executive Order on December 7, 2020?

Executive Order 13961 of December 7, 2020

Governance and Integration of Federal Mission Resilience

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Security Act of 1947, as amended, I hereby order the following:

Section 1. Policy. It is the policy of the United States to maintain comprehensive and effective continuity programs that ensure national security and the preservation of government structure under the United States Constitution and in alignment with Presidential Policy Directive-40 (PPD-40) of July 15, 2016 (National Continuity Policy). Executive departments and agencies (agencies), including the Executive Office of the President, must maintain the capability and capacity to continuously perform National Essential Functions (NEFs), as defined by PPD-40, regardless of threat or condition, and with the understanding that adequate warning may not be available. Agency heads must fully integrate preparedness programs, including continuity and risk management, into day-to-day operations to ensure the preservation of the NEFs under all conditions.

I believe DJT knew how deep, the enormity and the corruption. I also believe that JFK and Bobby knew too. The solution is, I believe, we must all be committed to the restoration of our Constitutional government and God's Commandments. In Jesus's name!
